

An architectural rendering of a river park. In the center, a large, multi-story stone mill with a gabled roof stands on a concrete foundation. A river flows through the park, featuring a small waterfall that cascades over the mill's base. The riverbank is paved with a brick pattern and includes a dark metal railing. People are shown sitting on a concrete ledge, walking, and standing near the railing. In the background, a church with a tall, pointed steeple is visible. The sky is blue with scattered white clouds. The overall scene is bright and sunny.

Workshop 4

Erlebbare Flüsse
auch mit Hochwasser- und Naturschutz

Da kann man was erleben!
